LEFT WALL: SU-2231 MT

New 3M™ DI-NOC™ Matte Series | Suede Edition

In collaboration with leading designers from across the globe, the new 3M™ DI-NOC™ Suede Matte Series offers trend-setting patterns that will give you even more ways to create stunning visual effects on a variety of surfaces. Designed with 3M's exclusive matte surface technology to create a soft, suede-like materials to elevate your space.

Durability

It's versatile enough to transform an entry area into a bright, emotionally-engaging space, or refresh

Flexibility

Apply on flat or curved surfaces or shapes

Design

Sophisticated on trend patterns

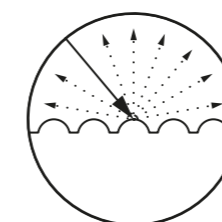

Fast application

Easy to apply, self-adhesive film reduces time and cost of application.

Cleanability

Easy to clean with detergent and water and withstands most hospital grade cleaners.

Matte Coating Technology

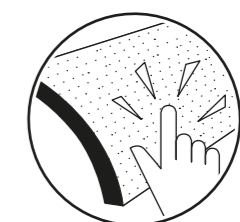

Diffuse Reflection

The new state of the art matte surface converts incident light into diffuse reflection, providing very low gloss and a deep, high quality matte texture.

Fingerprint Resistant

The matte texture provides fingerprint resistance, reducing the visibility of fingerprints with an easy to maintain surface.

Tactile Feature

A realistic matte texture is created by combining the matte coating technology with high definition embossing technology.

3M™ DI-NOC™ Architectural Finishes are available in over 1,000+ patterns. To learn more, visit 3m.com/amd.
