

Product Focus

Campaign White on Black 40%

Campaign White on Black 40% is part of Contra Vision's economical range of perforated window films, this product retains many high quality features at very competitive prices, making it the market leader for this category of product.

The product is manufactured to exacting standards to provide high quality printing, minimal shrinkage and problem-free installation and removal.

White on Black perforated window films for one-way vision are typically applied to the outside of windows with the graphics facing outwards and the black side facing inwards.

We recommend **Campaign White on Black** for use on short-term promotional campaigns of up to 2 years.

40% transparency is the most popular option, with a good balance between image impact and through-vision, making it particularly suitable for vehicle windows and full building wraps.

This product features a Universal Grayliner™ which is suitable for all print technologies.

“ The most popular option, with a good balance between image impact and through-vision. ”
