3M

Brilliance
and strong presence
for your advertising

3M™ Scotchcal™ Translucent Graphic Film Series 3630 will make your company logo visible around the clock and enhance the appearance of your corporate image.
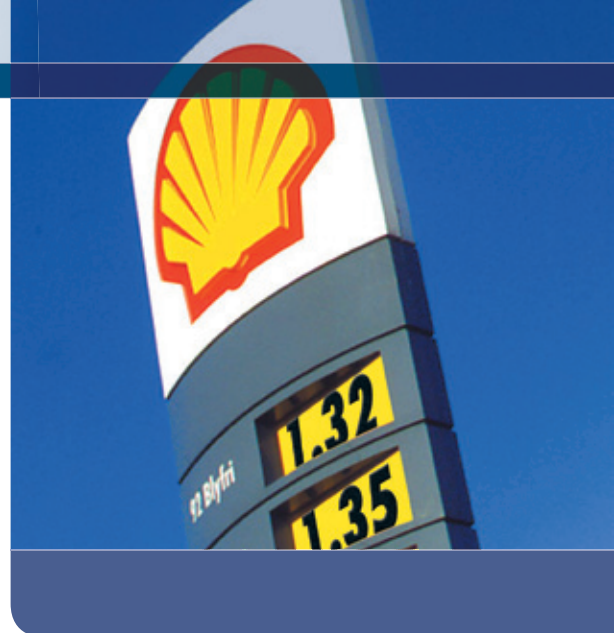

Diverse applications
In illuminated advertising, illuminated strips, filling stations, shop-windows and restaurants. Wherever you wish to advertise, whether by day or by night. Colour fastness and dimensional stability ensure reliability, and the brilliance of the films ensures a high level of attention.

Advertising on different surfaces
3M™ Scotchcal™ Translucent Graphic Film in Series 3630 is excellently suited for application to glass and acrylic surfaces and will also ensure perfect presentation of your brand on 3M™ Flexible Substrates.

Large colour selection
57 luminous standard colours provide extensive design freedom. The option of requesting your individual special colours means that the special requirements of your corporate image can also be fulfilled. The range is completed by version IJ3630-20, which enables digital printing.
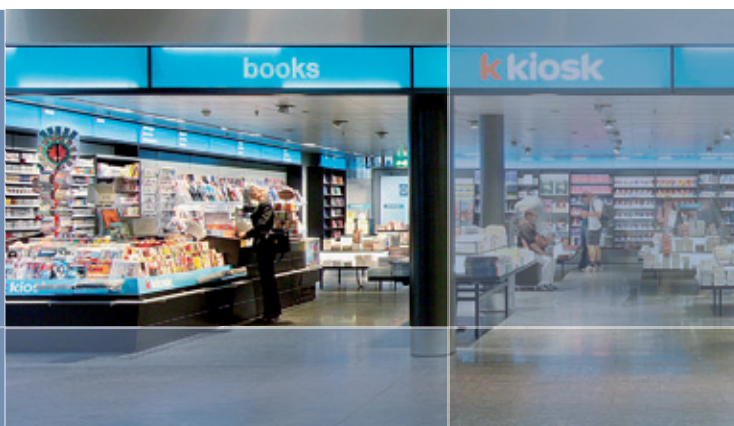

Broad range of application and ease of use
From simple advertising messages through to complex corporate design – 3M™ Scotchcal™ Translucent Graphic Film 3630 can be:
- ■ easily cut, thanks to polyester protective paper
- ■ wet-bonded quickly and problem-free, from +16°C

Durable with a high quality image
Wherever your illuminated advertising is placed, 3M™ Scotchcal™ Translucent Colour Films 3630 ensure perfect presentation and consistent colour reproduction of your brand, with a service life of up to ten years*.

* Service life: For central European climate zone in exterior applications, unprinted film.
